

# Feeding Frustrations

*Learn why feeding problems develop and how you can start helping your child eat*

**THURSDAY, JULY 11, 2019**

**6:30 PM – 8:00 PM**

Pediatric  
Feeding  
INSTITUTE

**HAVING A CHILD WHO DOESN'T EAT** can make even the most confident parent feel defeated, frustrated and helpless. Come join Dr. Betsy Clawson, PhD and Carol Elliott OTR/L, co-founders of the Pediatric Feeding Institute, as they provide insight into the underlying causes of feeding problems, how and why feeding behaviors develop and what to do to help a child learn to eat. They will share treatment strategies utilized in the TR-eat® Model (Transdisciplinary Effective Assessment and Treatment) of intervention. The TR-eat® Model melds oral motor/sensory therapy techniques along with medical and behavioral management. These interventions are systematic, and evidence based.

Betsy and Carol provide professional training and continuing education courses for therapists working in the field of pediatric feeding. Both are full time practitioners who have 20+ years of experience working in a variety of clinical settings. They are excited to share their knowledge in this powerful parent training session.

**\$25/person | \$40/couple**
